POOJA BISWAS

FULL STACK DEVELOPER

CAREER OBJECTIVE

I am a Highly motivated individual seeking for a Software Developer role to utilize my skills in JavaScript, Node.js, and MySQL.

INTERNSHIPS

Nov-2023 to Dec-2023 | Octanet Services Private Limited.

Web Developer Intern

- Gained experience with HTML, CSS JavaScript programming languages and tools used during the internship.
- Used specific systems and tools like Vs code and GitHub to collaborate with teams and manage projects
- Contributed to the completion of [landing page website] and achieved my project goal.

PROJECTS

- **Landing Page (HTML, CSS)**
- https://github.com/546ruma/octanet_november
- This project is a coffee shop website designed to provide a unique online experience for customers.
- The site features a modern design and easy navigation.

- **Weather Forecast (HTML, CSS, JavaScript, API)**
- https://github.com/546ruma/weather-forecast
- A simple weather app that fetches data from the Open Weather Map API.
- Usage Enter a city in the search bar.
- Press the submit button. The app will display the current weather for the entered city.

- **Hotel website (HTML, CSS, JavaScript)**
- https://github.com/546ruma/Hotelify
- This project is a JavaScript-based solution for a web page that includes various interactive elements, such as a menu, popups, a date picker, and hover effects.
